

## Capitol Type III Cement

**Product Name:** Capitol Type III Portland Cement

**Manufacturing Location:**

Capitol Aggregates, Inc.  
11511 Nacogdoches Road  
San Antonio, TX 78217

**Description:** Capitol Type III Cement Meets the requirements of ASTM C150/150M *Standard Specification for Portland Cement* as a Type III cement. Capitol Type III can be used in general construction applications as well as cement for precast concrete products.

**Packaging:** Bulk

**Technical Data**

**ASTM International**

- ASTM C 150 *Standard Specification for Portland Cement*
- ASTM C 1157 *Standard Performance Specification for Hydraulic Cements*

**American Concrete Institute (ACI)**

- ACI 225R-99 *Guide to the Selection and Use of Hydraulic Cements*

**Application**

- Capitol Type III cement is typically used in applications requiring high early strength such as precast, prestressed, pipe, and other concrete products.
- Capitol Type III can also be used to make concrete either in ready mix, volumetric, or concrete products manufacturing operations. General construction elements and structural components can be produced with our Type III cement as well.

**Technical Guidance**

**Concrete Proportions Guidelines**

- ACI 211.2-98 *Standard Practice for Selecting Proportions for Normal, Heavyweight, and Mass Concrete*
- Capitol Type III Cement should be tested with the actual materials used in concrete production.

**Safety**
